T E C H N I C A L P R O D U C T S

MCS TECHNICAL PRODUCTS was formed in 1997 by our founder, owner and MD Steve Snow, who with many years' experience in the catering industry, spotted the potential of INDUCTION as a cooking medium. With access to the product range from the American company, CookTek, Steve secured exclusive rights to import and distribute CookTek products into the UK and Ireland. The range at that time included counter top and drop in cooking units, the innovative Induction buffet systems, (Incogneeto and Silenzcio) and the food delivery system (PTDS). These early products, with their design, innovation and reliability soon established CookTek as a premium product, and with MCS adding a 5 year parts and labour warranty to the products, the industry recognised the value of dealing with a responsible company. The products were soon being used by companies such as Dominoes, Papa Johns, hotel groups Thistle, Hilton, Holiday In and many independent hotels and pizza shops.

MCS developed fabricated units using CookTek induction including fully suited kitchen units, an Asian style Cooking station and a fully self-ventilating work station.

CookTek's range has increased since the early days to include three phase units, including free standing and built in Stockpot burner, and an Induction plancha.

With the increased awareness of green issues and the fast growing Induction market, MCS have invested in product, still with the company's core values of ENERGY SAVING, and FOOD SAFETY .we now import into UK and Ireland product from the Italian company ZERNIKE, these include a unique and patented GRIDDLE/PLANCHA, FLASHGRILL, and a range of meat ageing cabinets, KLIMA again with several USP's for the catering industry.

MCS are proud to have been supporting the Welsh Culinary Association for over 12 years, supplying CookTek induction units for use in culinary competitions and salons. And look forward to continuing our association long into the future.
